SPINDLE PADS FOR PSA & H&L DISCS

These spindle pads are designed to hold small diameter PSA or H&L discs. The pad diameters are slightly undersized by design to protect the edge. Shanks are threaded and can be removed leaving a 1/4-20 female arbor.

ABRAS DIAMETER	PAD DIAMETER	SHANK	PSA PADS		H & L PADS	
			EDP #	PAD #	EDP #	PAD #
3/4”	0.75”	1/4”	151039	405-AM-4S		
1”	0.91”	1/4”	151040	413-AM-4S	151057	413-HM-4S
1¼-1½”	1.17”	1/4”	151042	406-AM-4S		
2”	1.85”	1/4”	151044	407-AM-4S	151058	407-HM-4S
3”	2.87”	1/4”	151048	409-AM-4S	151059	409-HM-4S

PADS FOR H&L DISCS

KOLTEC USA’s pads for H&L discs are typically used in finishing and polishing applications with H&L abrasive or diamond discs. Pads with water feed holes are commonly used in the polishing of marble, granite, and other ceramic material in a wet mode. They can be used in both wet and dry applications.

Spindle pads with 1/4” shank

Pads with foam interlayer and a water feed hole. Can be used wet or day.

Pads without foam layer for firmer action. Available with or without water hole.
